

Mr. Mohammed Sami S Habib was appointed as the Permanent Representative of Saudi Arabia on the Council of the International Civil Aviation Organization (ICAO) on 6 February 2025.

While serving as an Alternate Representative from 2016 to 2023, he successfully contributed to Saudi Arabia's re-election to the ICAO Council across multiple assemblies. He has played a pivotal role in shaping global policies such as the *Carbon Offsetting and Reduction Scheme for International Aviation (CORSIA)* and the adoption of the *Net Zero Goal by 2050* at the 41st ICAO Assembly.

Mr. Habib has over a decade of experience in international civil aviation, climate change policy, and global diplomacy, with a strong focus on strategic planning, treaty ratification, and international negotiations. His expertise includes lobbying and advocating official positions, resolving international disputes, and advancing sustainable aviation initiatives.

His leadership has been instrumental in resolving critical aviation disputes, developing global frameworks, and fostering partnership. He chaired key committees for the Gulf Cooperation Council (GCC) and the Arab Civil Aviation Organization (ACAO). He has also served as the Saudi Arabian member of ICAO's Committee on Aviation Environmental Protection (CAEP) for several years.

Mr. Habib holds a *Master of Science in Industrial Engineering* from King Abdulaziz University and has completed advanced training in international law, climate policy, and aviation management.

With a passion for sustainable aviation and global collaboration, Mr. Habib is committed to shaping a safer, greener future for the aviation industry. His work reflects a deep dedication to advancing Saudi Arabia's leadership in international aviation and fostering innovation for the next generation of aviation professionals.
