

An aerial photograph of a stunning coastal scene. The water is a vibrant turquoise, transitioning to a deeper blue as it extends into the distance. A white boat with a dark cabin is positioned in the center of the frame. The coastline is rugged, with white rocks and patches of green vegetation. In the upper left, there's a small peninsula with more greenery and some stone structures. The overall atmosphere is serene and picturesque.

## ANCIENT SITE OF PERGE

Perge, located 19 km east of Antalya, used to be one of the most important cities of ancient Pamphylia. The area of ancient Perge is vast and the visit takes at least two hours.

# Kurşunlu Waterfall

Kurşunlu Waterfall is located in a two-kilometer-long canyon in Antalya. The waterfall is in a natural park and falls from a height of 18 meters.

To reach Kurşunlu Waterfall, which is known as Antalya's hidden paradise, a small hike is required along paths surrounded by lush greenery. Breathing in the clean air, the view that awaits you when you reach the waterfall will make you forget all your tiredness..
